

What is Babel ?

Babel is The Queensland Living History Federation's (QLHF) membership database.

ALL individual members of QLHF are required to be registered for the following reasons:

- Event of Emergency
- Insurance
- Representation to Public and Private sectors (numbers involved)
- Member benefits
- Event Planning

It is an invoice driven system – members generate their own invoices and can refer back to past invoices on-line. Only when a member has generated an invoice will they be able to pay their membership.

Dependants

Dependants are catered for, but this is purely for family and legal guardian situations

What is needed to utilise Babel ?

- A Computer
- A working internet connection
- Web browsing software
- A VALID – and working - email address (any other email addresses will be deleted)

Security

The QLHF membership database (Babel) uses industry standard SSL for data encryption between the it and the member's browser. This provides confidential and tamper-proof communication on par with financial institutions.

The database information is secured against unauthorised use by several methods such as password hashing and role based access restrictions.

Privacy

As required, the details of membership will be verified with nominated membership groups.

All details are taken as confidential.

- Your Registration onto the system
